

Flexan Automotive

Flexan has been manufacturing quality performance rubber parts for the automotive industry for over thirty years. We have successfully engineered solutions for fuel systems, hydraulics, brakes, and HVAC controls.

- Customized performance elastomers work to create fuel system components with excellent permeation resistance.
- Hydraulic applications for fuel pumps and solenoids designed to improve efficiency and performance.
- Vacuum logic controls are designed to regulate the air flow within a vehicle with minimal energy consumption.

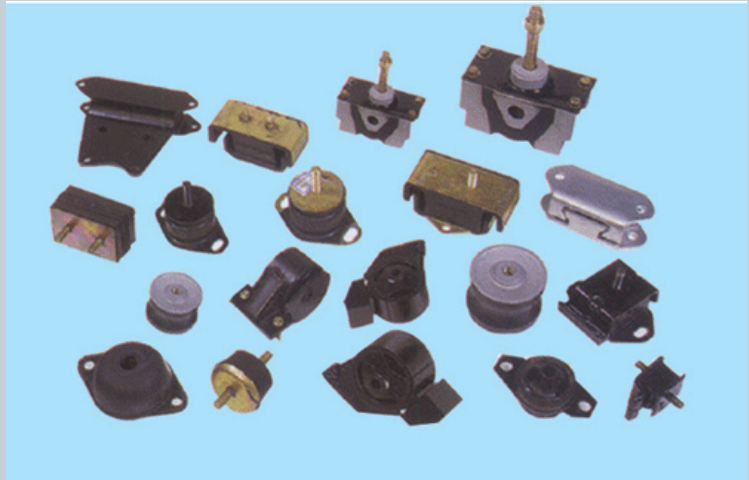

Flexan Automotive

Parts

- ⊙ Tank Seals
- ⊙ Gaskets
- ⊙ O-rings
- ⊙ VO-rings
- ⊙ Grommets
- ⊙ Adaptors
- ⊙ Controls

Materials

- ❖ Highly saturated nitriles
- ❖ Acrylates
- ❖ Fluorocarbon (FKM)
- ❖ Silicone and Fluorosilicone

Flexan welcomes the opportunity to discuss your automotive application. Please contact us at 773-685-6446 or www.flexan.com for more information.
